

🔍 WHAT IS IT?

Factoid Faceoff is a live, high-energy trivia game where answering the question is just the beginning.

Three contestants buzz in to tackle a gauntlet of questions — but only the fastest correct answer earns a chance to pull from the game board, where points, penalties, and sabotage await.

Presented by Channel 404 Studio — the fiends behind Left Field Logic and masters of beautiful chaos.

🎮 FORMAT AT A GLANCE

- **Players:** 3 Contestants
 - **Audience:** All Ages (players are encouraged to keep it family friendly)
 - **Length:** ~60 minutes
 - **Platform:** Live stage show (streaming optional)
 - **Scoring:** Buzz-in trivia with grid-based bonuses, penalties, and sabotage mechanics
-

🧠 HOW TO PLAY

- The first player to buzz with the **correct** answer gets to pick a square from the board.
 - Squares may reveal **bonus points**, **penalties**, or **special effects** like *Kaboom!*, and *Flip-Side*.
 - Each round increases in intensity — point values climb, and board effects get wilder.
 - Players receive a **NOPE! Token** at the start of each round, allowing one strategic block or deflection.
 - **The Pity Pool** is active in **every round** — a shared jackpot that grows with every missed question, penalty, or sabotage. It can be claimed once per round by the first player bold (or desperate) enough to go for it.
-

★ WHAT MAKES IT STAND OUT?

- **Buzz-In Chaos:** Speed, knowledge, and nerves of steel are your only friends.
- **Sabotage-Heavy Gameplay:** Kabooms blow up your score, Flip-Sides swap it, and more!
- **NOPE! Tokens:** You get one per round. Use it to save yourself, betray your rivals, or stall the chaos just a little longer.
- **The Pity Pool:** A growing jackpot of lost points, bad luck, and regret. It builds across every round and resets when claimed — or rolls forward if untouched.

🔧 TECHNICAL & BOOKING DETAILS

🔧 TECHNICAL REQUIREMENTS

- Projector or screen with HDMI input
 - Audio output (3.5mm or Bluetooth-compatible)
 - Microphones: 1 host mic (handheld or lav), optional player mics
 - One contestant table (6–8 feet recommended)
